ABOUT ME

My hobbies are mainly spending time with friends, I like to surf, train calisthenics, do outdoor activities, I also really enjoy spending time with my pets.

On the other hand, I like to play video games and learn more about the world of software development.

I consider myself a sociable, patient, calm person who has emotional intelligence when it comes to relating to other people.

I am also a person with creativity and initiative when it comes to solving or creating.
