MATEO ROCA

Hello, my name is Mateo Roca, I am very happy to say that I recently graduated as a Systems Analyst.

During my training, I have acquired solid knowledge that covers various programming languages and concepts agnostic to a specific technology. This foundation has allowed me to comprehensively understand the logic and fundamentals behind systems development.

I consider that one of my strengths lies in my ability to learn quickly and agilely. My current goal is to make use of my knowledge and skills to contribute effectively in a work environment.

My professional search is oriented towards obtaining a job in which I can apply and continue developing my knowledge.

If you want to know more about my projects, I invite you to visit my website , scanning the qr below .
